

THE FRUIT

This exceptional liqueur muscat is made from muscat à petit grains. Though records don't allow calculation of the wine's precise age, its average age is at least 20 years.

THE WINEMAKING

While old material is crucial to the wine's richness and complexity, careful blending with younger material provides the wine with muscat fruit characters. To control the aged rancio characters, the muscat is matured in larger cooperage than used for tawny port. We use a solera-based system, enabling us to consistently release wines of high quality and to gradually improve that quality even further. A limited quantity of muscat is drawn for bottling each year and the barrels topped up with selected younger wine.

(Grant Burge Age Unknown LIQUEUR MUSCAT)

Our Age Unknown Liqueur Muscat is a luscious, complex wine with enormous depth of rich, powerful flavours. While the wine shows ample aged rancio characters, it is crucial that these characters don't dominate. Careful blending has ensured that they are balanced by fresh muscat fruit flavours to produce a wine that is sweet but finishes cleanly and without being at all cloying.
